1. Claims 1-4, 6-17 and 20-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1 and 13 are confusing. Each of these claims contains a "wherein" clause concerning the weather barrier immediately followed by two clauses. But the second of the two clauses, while apparently referring back to the weather barrier, actually describes a vent in a transverse partition which is not a part of the weather barrier itself (the examiner is basing this conclusion on Figure 4 and its description in the specification). Clarification is required.

2. Applicants' arguments filed October 10, 2006 have been fully considered but they are not persuasive. Applicants' arguments are considered to be moot by the examiner based on the revised ground of rejection introduced in this Office action.
